

Born from an original idea by Pamela Keeley, MEN? The Musical has grown into something far bigger than the original plan, which was to stage a theatrical production.

The questions became bigger than the stage.

The Musical tells the story.

A series of podcasts opens up the conversation.

Our podcasts are available on all the main platforms. Search MEN? The Musical - Official podcast.

Together, they create a space to explore relationships, behaviour, identity, equality, self-worth and the choices we make.

Ultimately, MEN? The Musical asks the question that belongs to all of us:

What will you choose differently?

YOUR CHOICE. YOUR VOICE.

We believe entertainment can do more than entertain.

It can make us think.

It can make us question.

It can make us feel.

And sometimes, it can inspire us to change.
